

Intern - Software Engineering

Pune, Maharashtra (On-site) | 12-Month Internship (July/August 2026 - June 2027) | Stipend: ₹20,000 - ₹25,000/month
| PPO: ₹12 - ₹14 LPA

About MetroGuild

Sales teams lose deals every day to missed calls, cold leads, and messy CRMs. MetroGuild fixes that. We build an AI-powered sales engagement platform where intelligent agents answer calls, qualify leads, and update the CRM-automatically. 120+ businesses across India and the US run on us. We're a small team in Pune building serious technology.

What You'll Do

- Architect scalable, distributed backend systems that can handle real-world chaos with startup-level speed and reliability
- Team up with Product ninjas, Engineering jedis, and Customer Success whisperers to solve meaningful problems using clean, smart code
- Get your hands dirty integrating Generative AI and ML models to craft intelligent, personalized product features (yes, we're serious about AI-not just buzzwords).
- Design and build AI agents and RAG (Retrieval-Augmented Generation) pipelines to power intelligent, context-aware product features
- Write modular, testable code that's CI/CD ready, because broken builds ruin everyone's day
- Participate in architecture discussions and code reviews
- Own features end-to-end: from brainstorming and designing to pushing to prod and watching the logs roll in
- Stay on the bleeding edge of backend frameworks, cloud-native architectures, and AI/LLM integrations

Your Toolbox (or the one you'll build here)

- **Languages:** JavaScript / TypeScript, Python (we're stack-flexible but performance-picky)
- **Frameworks:** React, Django, FastAPI
- **Cloud:** AWS
- **Datastores:** Cassandra, Redis, ElasticSearch
- **DevOps:** Docker, Jenkins, and CI/CD pipelines you'll actually want to use
- **AI/GenAI:** Experience with agent orchestration frameworks and prompt engineering for production LLM features is a strong plus
- **Bonus:** If you've tinkered with LangChain, OpenAI APIs, or other GenAI tools

What You'll Get

- Mentorship from engineers who've built production-grade systems
- Exposure to cutting-edge tech in the AI x SaaS world
- Real ownership
- Pre-Placement Offer (PPO) for high performers: ₹12 – ₹14 LPA, offered before your internship ends

Apply through your college placement cell. For queries, contact the HR Team:
shrishtyv@metroguild.com | www.metroguild.com

Eligibility

- B.E. / B.Tech - Computer Engineering, Information Technology (2026–27 graduating batch, final-year students available for a 1-year industry internship)
- Minimum CGPA 8.0 (10-point scale), no active backlogs at the time of joining
- Strong fundamentals in programming, data structures, and problem solving

Selection Process

Online Technical Screening → Technical Interview 1 → Technical Interview 2 → HR Discussion
